

The SQUAREHAB project will be having its Fourth General Meeting at the Helmholtz Zentrum in Munich (23-24 November 2011). The meeting is an opportunity to discuss the progress of the Project in its third year, present the results achieved in 2011, and finalise the preparations for the work to extend the project to other regions in Europe. Other issues such as how the work of the project is being disseminated and the involvement of end users will also be discussed, particularly in light of the External Workshop to be held in Barcelona in September 2012.
